GIS in Utilities (Water, Waste Water, Electric and Gas)

When implementing GIS technology for Utilities it is vital to utilize and combine the newest technology in both office and field management systems. GEO-Jobe® GIS Consulting can assist you with services that will provide the latest in GIS technology and facility management. Services such as GPS field data collection, CAD to GIS data conversion, customer billing and GIS integration, GEODatabase migration and Authorized GIS & GPS training.

GEO-Jobe® GIS Consulting can provide the GIS expertise to implement your GIS system in an efficient and cost-effective manner allowing you to focus more on your daily tasks.

GIS PRODUCTS

- ArcGIS Products
- GEOpowered
- ArcPad Mobile GIS
- Trimble GPS Products
- GPS Rentals
- Map Book Production

GEO-Jobe® GIS Consulting and Duncan-Parnell, Inc. (with offices in Springfield, TN and the Carolinas) have formed a "strategic alliance" which provides even more specialized GIS/GPS solutions for utilities in the mid-south. This alliance offers certified Trimble GPS training combined with ESRI Authorized GIS training using Trimble GPS products, such as the GeoXT, and ESRI products such as ArcPad field data collection.

ESRI Authorized:
Consultant
Reseller
Instructor
